DISCLAIMER

This document is personal to the recipient and has been prepared and issued by Botswana Diamonds plc (the Company). For the purposes of this notice, the presentation that follows (the Presentation) shall mean and include the oral presentation of the slides by the Company, the question-and-answer session that follows that presentation, hard copies of this document and any materials distributed at, or in connection with, that presentation.

This Presentation has not been independently verified. The Presentation is for information purposes only and does not purport to contain all information that a prospective investor may require. No reliance may be placed for any purposes whatsoever on the information contained in this Presentation or on its completeness, accuracy or fairness. No representation or warranty, express or implied, is given by or on behalf of the Company or any of such persons' directors, officers, advisers, agents or employees or any other person as to the accuracy or completeness of the information or opinions contained in this Presentation and, to the extent permitted by law, no liability whatsoever (in negligence or otherwise) is accepted by the Company, or any of such persons' directors, officers, advisers, agents or employees or any other person for any loss, however arising, directly or indirectly, from any use of such information or opinions or otherwise arising in connection therewith. In particular, no representation or warranty is given as to the achievement of reasonableness of, and no reliance should be placed on any projections, targets, estimates or forecasts contained in this Presentation and nothing in this Presentation is or should be relied on as a promise or representation as to the future. The information and opinions set out herein may be subject to updating, completion, revision, verification and amendment and such information may change materially. In furnishing this Presentation, the Company does not undertake any obligation to provide any additional information or to update or keep current the information in this Presentation or to correct any inaccuracies in, or omissions from, this Presentation which may become apparent.

This Presentation should not be considered as the giving of investment advice by the Company or any of its shareholders, directors, officers, agents, employees or advisors. Each party to whom this Presentation is made available must make its own independent assessment of the Company after making such investigations and taking such advice as may be deemed necessary.

Some statements contained in this Presentation or in documents referred to in it are or may be “forward-looking statements” or forward-looking information” (as such terms are understood under applicable securities laws) forward-looking statements, including, but not limited to, statements as to future operating results, work plans and potential acquisitions and contracts. The forward-looking statements include statements typically containing the words “intends”, “expects”, “anticipates”, “targets”, “plans”, “estimates” and words of similar import. These forward-looking statements speak only as at the date of this Presentation. These statements are based on current expectations and beliefs and, by their nature, are subject to a number of known and unknown risks, uncertainties and assumptions that could cause actual results, performances and achievements of the Company and its subsidiaries to differ. The forward-looking statements are based on numerous assumptions regarding the Company’s present and future business, strategies and interests and the environments in which the Company may operate in the future and such assumptions may or may not prove to be correct. No one undertakes to update or revise such forward-looking statements. Nothing in this Presentation or in documents referred to in it should be regarded as a forecast profit. All expressions of opinion and belief contained in the Presentation are opinions and beliefs held by the Company at the date of the Presentation. Material factors that could affect the Company’s future results could differ materially from those expressed in any forward-looking statements in this Presentation can be found in the Company’s 2014 annual report, available at http://www.botswanadiamonds.co.uk/res/file/BotswanaAR2012.pdf.

Accordingly, recipients of this Presentation are advised not to place undue reliance on the forward-looking statements contained in this Presentation.

Past performance cannot be relied on as a guide to future performance.

This Presentation does not constitute, or form part of, or contain any offer or invitation to sell or issue, or any offer to subscribe for, underwrite or otherwise acquire, or dispose of, any securities in the Company in any jurisdiction in which such offer or sale would be unlawful prior to registration, exemption from registration or qualification under the securities laws of any jurisdiction.

This Presentation is directed at, and is only for distribution to, persons in member states of the European Economic Area who are “qualified investors” within the meaning of Article 2(1)(e) of the European Prospectus Directive 2003/71/EC (or who are persons to whom it may otherwise be lawfully communicated). No offer of securities in the company is being or will be made in the United Kingdom in circumstances which would require such a prospectus to be prepared.

This Presentation is intended for distribution in the United Kingdom only to: (i) persons who have professional experience in matters relating to investments falling within Article 19(5) of the Financial Services and Markets Act 2000 (Financial Promotion) Order 2005 (the Order); or (ii) persons falling within Article 49(2)(a) to (d) of the Order (high net worth companies, unincorporated associations etc) or to those persons to whom it can otherwise lawfully be distributed (all such persons together being referred to as Relevant Persons). This Presentation must not be acted upon by persons who are not Relevant Persons. Any recipient of this Presentation who is not a Relevant Person should return it immediately, not attend the presentation and take no other action.

The distribution of this Presentation in jurisdictions other than the United Kingdom may be restricted by law and persons into whose possession this document comes should inform themselves about, and observe, any restrictions. In particular, neither this Presentation nor any copy of it may be taken or transmitted or distributed or redistributed (directly or indirectly) in the United States, Japan or Australia. Any failure to comply with this restriction may constitute a violation of United States, Japanese or Australian laws.
BOTSWANA DIAMONDS PLC
At a glance

**AIM: BOD, BSE: BOD**
Dual listed **London & Botswana**

**EXPERIENCED MANAGEMENT**
Prior successful commercial diamond discovery (AK6/Karowe):
African Diamonds plc returned **25x investment**

**VISION**
*Balanced project pipeline*
Development of **quality, advanced, primary diamond** projects close to current or historical diamond mines.

**BEST ADDRESS**
- **Botswana:** ‘The Switzerland of Africa’
- **South Africa:** under explored but with strong infrastructure
- **Zimbabwe:** under explored, opening up for business

**TECHNOLOGY**
Application of **third generation exploration technology**

**PARTNERSHIPS**
- **Botswana:** BCL/Maibwe & Sunland Minerals
- **South Africa:** Vutomi Mining Pty Ltd
- **Zimbabwe:** Vast Resources plc
**WHY DIAMONDS?**
Positive fundamentals

- **Positive long-term outlook**: diamond prices fundamentally driven by supply-demand dynamics and economic growth
- Rough diamond **supply**: predictable and stable until 2030
- Rough diamond **demand**: expected to grow 1-4% per annum
  - Rough diamond producers boosting investment in generic and branded marketing
  - Continued growth of middle class in China and India underpins demand forecast
  - Diamonds attracting interest as an investment category
- Rough diamond **prices**: expected to continue to **outperform gold** in years ahead
  - Fastest commodity to recover following the GFC
  - Less prone to volatility than mainstream commodities, albeit more volatile lately
HIGHLIGHTS
Four ventures on the highly prospective Kaapvaal Craton

Maibwe Joint Venture with BCL (Botswana)
JV on a block of 10 licences in the Kalahari with partners BCL, Future Minerals & Siseko. Diamonds discovered in earlier drilling

Sunland Minerals (Botswana)
Grass roots exploration on 8 Licenses in the Orapa and Kalahari regions. Advanced discussions with major producer to step in the shoes of Alrosa

Vutomi Earn-In (South Africa)
Vutomi has prospecting rights over 18 high interest kimberlites & 25,000 hectares of highly prospective ground in South Africa. Plan for the late stage Thorny River project to be cash generative in 2019.

Vast Resources plc (Zimbabwe)
EXPLORATION ACTIVITIES
A balanced portfolio of projects
EXPLORATION IN BOTSWANA
World’s best address for diamond investment

- Botswana is the Switzerland of Africa; stable, wealthy democracy
- **World’s largest diamond producer** (by value) with world-leading diamond mines: Orapa, Letlhakane, Jwaneng, Damtshaa and Karowe
- **Maibwe JV**: 10 Licenses in the Kalahari
  - JV owned by BCL (51%), Future Minerals (20%) & Siseco (29%). Siseco is 51% owned by BOD. BOD has a 15% carry through to BFS
  - A 2015 drilling programme discovered kimberlites containing significant quantities of diamonds
  - BCL which is in liquidation has almost concluded a prospectus with a view to selling their stake.
- **Sunland Minerals**: Eight Licenses in the Kalahari & Orapa
  - **Advanced discussions with potential new partner** who is a major producer
  - Prospecting is chiefly focused in the Kalahari where kimberlitic indicators reported over eight high-grade geophysical anomalies
  - The next step is drilling

Map source: Brook, 2012 on 11JKC website
EXPLORATION IN SOUTH AFRICA
Long history of diamond production

- South Africa: 700 M carats of diamonds produced since 1870 and produces in excess of **US$1 BN of gems per year** (c.8% global supply)
- Thorny River: an extension of the Klipspringer & Marsfontein Mine kimberlite dyke/pipe system
  - Estimated 1.2–2.1 M tons to 100 m and **in-situ value of $60-140/ton**
  - **Royalty mining contract signed** subject to customary regulatory approval & commencement post an in-fill drilling programme
  - **Cash flow generative** and **delivery of a maiden resource** at little cost to shareholders
- Free State: **eight kimberlite pipes** identified from historical records and ground truthing. Confirmed through whole rock geochemistry and size through geophysics
  - **Positive mineral chemistry** from all eight kimberlites. The next step is delineation drilling
- Palmietgat comprises **six diamondiferous kimberlite pipes** of which three fall within the granted area which is contiguous to the Palmietgat Mine, formerly operated by Trivalence
- Mooikloof: 2.5 hectare **diamondiferous kimberlite pipe** discovered by De Beers in 1986
EXPLORATION IN ZIMBABWE
Open for business

• **Zimbabwe:**
  • Open for business following the **democratic elections**
  • Long history of diamond production at River Ranch, Murowa and contains the **prolific Marange Diamond Field**

• **Vast Resources plc:**
  • **MoU signed with Vast** to develop Zimbabwe’s diamond potential
  • BOD has 13.3% of an SPV with Vast to develop the Heritage Concession in the **Marange Diamond Fields**
  • **Positive desktop study & field trip**
BOTSWANA DIAMONDS PLC
2019 news flow

- **Botswana**
  - Prospectus & sales process for **Maibwe**
  - New partner & updated exploration results for **Sunland Minerals**

- **South Africa**
  - Regulatory approval, in-fill drilling & commencing mining at **Thorny River**
  - Free State delineation drilling
  - Exploration results for Palmietgat & Mooikloof

- **Zimbabwe**
  - Exploration results from the Heritage Concession in the **Marange Diamond Fields**.
  - Kimberlite development outside of Marange
• Listed on London AIM and the Botswana Stock Exchange

• **Experienced team** which developed the AK6 (Karowe Mine) in Botswana

• The **right address with a balanced portfolio** of early stage and advanced kimberlite projects in South Africa, Botswana & Zimbabwe

• Use of **fit-for-purpose technology**

• **Risk sharing partnerships** with Vutomi, Maibwe & Vast Resources plc

• Looking at new projects in Botswana, South Africa and Zimbabwe with a clear set of commercial filters

EXPLORATION ACTIVITIES
Corporate Presentation - December 2018
**EXPLORATION IN BOTSWANA**

**Key country facts**

**Botswana IS diamond country**

- World’s best address for diamond investment
- The **Switzerland of Africa**; stable, wealthy democracy
- Continued political stability; rule of law; good title
- Good governance; prudent economic & natural resource management
- Robust economic growth supported by revenue flows consequent to the discovery of diamonds
- Lucara’s **Karowe discovered in 2004 by BOD team**, came on stream in 2012, producing exceptional large stones

Source: Brook 2012 on 11IKC Website
MAIBWE JOINT VENTURE WITH BCL
Abundant microdiamonds discovered

- Maibwe Joint Venture owned by BCL (51%), Future Minerals (20%) and Siseko (29%)
- Siseko is 51% owned by BOD
- BOD has a 15% carry through to Bankable Feasibility Study
- 10 licences held by Maibwe in the Kalahari
- Surrounding area hosts Gem’s Ghaghoo mine and Petra KX-36 discovery
- A 2015 drilling programme on PL 186 discovered kibberlites containing significant quantities of microdiamonds
- BCL is in liquidation and unable to finance an agreed work programme
- **BCL has completed a prospectus with a view to selling their stake.** BOD has approached the liquidator with several possible options
SUNLAND MINERALS JOINT VENTURE
Abundant Kimberlitic indicators discovered

- BOD is currently the operator
- Advanced discussions with major producer to step in the shoes of Alrosa
- Eight Prospecting Licences held by Sunland Minerals: two in the Orapa area & six in the Kalahari
- Prospecting is mainly focused in the Kalahari where abundant Kimberlitic indicators reported over eight high-grade geophysical anomalies have been discovered
- Drilling planned for 2019 over these anomalies
EXPLORATION IN SOUTH AFRICA

Key country facts

A confluence of:
- Perceptions of high risk and barriers to entry
- A historic legacy of South Africa as the domain of De Beers, which is no longer the case
- Limited competition for exploration ground
- Latest generation diamond exploration technologies not yet applied

And the oversight of:
- Sophisticated fixed and banking infrastructures
- A long history of diamond production with some 700m carats of diamonds produced since 1870
- The country produces in excess of US$1 billion of gems per year (c.8% of global supply)

Highlights of Vutomi earn-in:
- Portfolio of highly prospective multi-stage projects in the vicinity of known diamond mines
- 20 high-interest kimberlites already identified on the various prospecting rights
VUTOMI VENTURE: THORNY RIVER
Exploration Results – advanced stage project

- Consolidation of three properties into 2,771 hectare project
- Extension of Klipspringer & Marsfontein Mine kimberlite dyke/pipe system
- Minimum kimberlite dyke strike length of 4 km
- Estimated 1.2 – 2.1 M tons to 100 metres
  Modelled value of US$259/ct (BCOS of +2mm) in 2016
- Estimated (modelled) Total Content grade of 46-74 cpht (BCOS +1mm) or 35-56 cpht (BCOS +2mm)
- In-situ value of $60-140/ton
- Royalty mining contract signed subject to customary regulatory approval & commencement post an in-fill drilling programme
- Cash flow generative and delivery of a maiden resource at little cost to shareholders

+11 Diamond Sieve  
+9 Diamond Sieve
VUTOMI VENTURE: FREE STATE KIMBERLITES
Exploration Results

- **Eight kimberlite pipes** identified in the Free State from historical diamond production records and ground truthing
- Kimberlites confirmed through whole rock geochemistry
- Detailed ground geophysical survey completed with kimberlite pipe surface areas of up to 1.5 hectares
- **Positive mineral chemistry** from all eight kimberlites (3,100 grains analysed)
- **Drilling on first kimberlite planned** 2019
VUTOMI VENTURE: PALMIETGAT
Exploration Potential

- The Palmietgat area comprises **six diamondiferous kimberlite pipes** of which three fall within the granted prospecting rights area

- Area contiguous to the Palmietgat Mine, formerly operated by Trivalence, with **production** statistics:
  - Extracted 63,379 cts of diamonds from Palmietgat during 2003-4
  - Valued at US$60.68 per carat (US$3.846 million)
  - Reported resources of 3.5 million tonnes at an estimated grade of 44 cpht (unknown bottom cut-off and resource classification), to a depth of 110 metres for three of the kimberlites
VUTOMI VENTURE: MOOIKLOOF
Exploration Potential

- 2.5 hectare **diamondiferous kimberlite pipe** discovered by De Beers in 1986
- Adjacent to The Oaks diamond mine, which was a 1 hectare kimberlite pipe, produced 1.4M carats at a grade of 53 cpht and diamond value of $156/ct (BCOS of +1.2mm)
- The Marnitz kimberlite cluster hosts the **nearby Venetia Mine owned by De Beers** as well as several other kimberlites in South Africa, Botswana and Zimbabwe
- Samples taken for mineral chemistry and petrography
- A review of the award of the prospecting rights over 5 hectare out of the 800 hectare by the South African Department of Mineral Resources has been requested by a local company. We believe that our award is in order.
EXPLORATION IN ZIMBABWE
Open for business

• Memorandum of Understanding signed with Vast Resources plc to develop diamond resources in Zimbabwe

• BOD has 13.3% of an SPV with Vast to develop the Heritage Concession in the Marange Diamond Fields

• Positive desktop study and site visit to the Heritage Concession

• Agreed work programme of field mapping, drilling and bulk sampling (results dependent) for 2019

• Reconnaissance work on Kimberlites planned for 2019

John Teeling  
Executive Chairman  
Founder of a number of listed resource companies, including African Diamonds. Corporate transactions in recent years have returned US$250M to shareholders. Holds a doctorate in business from Harvard Business School as well as an MBA from Wharton.

James Campbell  
Managing Director  
Has been Managing Director of Rockwell Diamonds and African Diamonds. Prior to these appointments he was a General Manager with De Beers. Holds degrees in Mining & Exploration geology and an MBA.

James Finn  
Finance Director  
20 years’ African resource company experience; director of a number of resource and industrial ventures. Has led the listing procedure for ten AIM companies. Holds a degree in business and has an accounting qualification.

David Horgan  
Director  
Former director of African Diamonds. Holds a Law degree from Cambridge and an MBA from Harvard; 20 years of exploration experience in Africa and South America.

Robert Bouquet  
Commercial Director  
20 years' experience in diamond industry; 15 with De Beers/Rio Tinto Diamonds in a variety of strategic and commercial roles.

Anne McFarland  
Director  
Has worked in finance, commodity trading and manufacturing with Glencore, BP and Russian conglomerates. Fluent in Russian. Holds a degree in classics and is a chartered accountant.
